

Center Straight Groove

Two rib grooves ensure effective water dispersion. The test data can testify the excellent performance of the rib grooves.

Wing Groove

Two hollow rib grooves at outside with different length and angle that extend to the sidewall which can ensure effective water dispersion. The short grooves can ensure tenacity.

Lightning Groove

Lightning groove can not only ensure the tenacity of the tyre broadwise, but also show the pattern personalized design.

Side Dimple

Side dimple is the standard of friction index.

Excellent Structure

The tyre with unique auto-warming can make the tyre temperature attain to around 70 degree quickly to show the excellent ground grip performance.
